

KULDIP K MAHALE

kuldipmahale2001@gmail.com | +91 9890371852 | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

AI/ML Engineer with hands-on experience building machine learning pipelines, AI-driven backend systems, and intelligent web applications. Skilled in Python, Generative AI, backend engineering, and scalable software development with a strong focus on solving real-world problems.

EDUCATION

R.C. Patel Institute of Technology, Shirpur
B.Tech – Artificial Intelligence & Machine Learning

2024 – 2027

CGPA: 8.24

R.C. Patel Polytechnic, Shirpur
Diploma – Computer Engineering

2021 – 2023

86.71%

WORK EXPERIENCE

AI & Cybersecurity Engineering Intern

May 2026 – Aug 2026

Astraeus Next Gen Pvt. Ltd. — Remote

- Contributed to the design, modification, and execution of **autonomous AI systems** as part of a cross-functional engineering team.
- Assisted in **cybersecurity engineering** tasks including system security, threat analysis, and spyware detection.
- Participated in **full-stack development**, building and integrating secure web-based systems for AI and security-focused applications.
- Supported testing, debugging, and **performance optimization** of AI-driven and security-focused applications.
- Collaborated with cross-functional teams to deliver scalable, secure **system integration**.
- Documented technical workflows and system architecture to support development and deployment processes.

AI/ML Intern

Sept 2025 – Nov 2025

Infosys Springboard

- Built an end-to-end pollution classification system with a **10-member Agile cohort**, training **XGBoost** and Random Forest models to **90% F1-score** with GridSearchCV tuning.
- Developed full ML pipeline — live API ingestion, feature engineering, model training, and **Streamlit** deployment.
- Collaborated in Agile sprints, code reviews, and model evaluation to deliver an end-to-end ML solution.

Web Developer Intern

Jun 2023 – Aug 2023

anAccord Web World PVT. LTD

- Developed responsive UI components using HTML5, CSS3, JavaScript, and React.js for production web applications.
- Integrated REST APIs to connect frontend modules with backend services, streamlining data flow across the application.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Frontend: React.js, Redux Toolkit, HTML5, CSS3

Backend: FastAPI, REST APIs

AI / LLM: Generative AI, LangGraph, NLP

ML Libraries: Scikit-learn, Pandas, NumPy, TensorFlow, PyTorch (Basics), Matplotlib, Plotly

Data Science: XGBoost, Random Forest, EDA, Feature Engineering, TF-IDF, OCR

Databases: PostgreSQL, MySQL, MongoDB, Supabase

Tools & Platforms: Git, GitHub, VS Code, Streamlit, Power BI, Excel

PROJECTS

AI-First CRM – HCP Module

[Link]

React.js, FastAPI, PostgreSQL, LangGraph, Groq LLM

- Built an AI-first CRM for Healthcare Professional (HCP) interaction management using React, FastAPI, PostgreSQL, LangGraph, and Groq LLM.
- Implemented AI-powered interaction logging through both structured forms and conversational chat using a LangGraph agent with 7 tools.
- Developed REST APIs and integrated the frontend, backend, database, and LLM into a complete end-to-end workflow.

CleanD AI – Automated Dataset Profiler & Preprocessor

[Link]

Python, Streamlit, Pandas, NumPy, Scikit-learn

- Deployed an interactive preprocessing app supporting EDA, missing value imputation, outlier detection, encoding, normalization, PCA, and SMOTE for class imbalance handling.

EnviroScan – AI-Powered Pollution Source Classifier

[Link]

Python, XGBoost, Random Forest, Folium, GeoPandas, Streamlit, OpenAQ, OSMnx

- Classified 5 pollution sources (Industrial, Vehicular, Agricultural, Burning, Natural) using **XGBoost** and Random Forest on live API data achieved **90% F1-score** with GridSearchCV tuning.
- Engineered features from 3 APIs (OpenAQ, OpenWeatherMap, OSMnx) and deployed a Streamlit dashboard with real-time heatmaps and threshold alerts.

CERTIFICATIONS

Generative AI with Large Language Models – DeepLearning.AI & AWS (Coursera)

Microsoft Certified: Power BI Data Analyst Associate – NASSCOM
